

A 2-day training course into the Smart Tecs

Location SHIPO, Njombe

23-24 October 2008

US \$ 79,--

Smart Tecs are easy applicable and innovative water- and sanitation solutions like manual well drilling, well digging, water treatment, water storage, irrigation, stoves and sanitation solutions.

The price covers lunch and diner during the two training days and all training related learning materials. Also included is a field trip when several options of the Smart Tecs will be shown. If you have your own transport during the fieldtrip, a discount will be given. Accommodation is not included although hotel reservations can be easily made by SHIPO. All prices are based on actual costs. No profit will be made.
